<u>Note</u>: sluices under the influence of backwater of the Gulf of Gdańsk or the Vistula Lagoon may be closed for navigation in case of strong and persistent winds from the north.

3. Notices to Skippers

Vistula at km 680.0 - 830.0

From km 680 to 718, the floating signs are displayed. From km 718 to 729, the navigation waterway is marked with coastal navigation signs. Floating signs are displayed from km 729 to 737 while from km 737 to 830, the waterway is marked with coastal navigation signs, whose placement is adjusted on an ongoing basis. The current water level on the Vistula River is low with a downward trend. Sand bars, i.e. places that limit the fairway depth, has appeared.

Vistula at km 830.0 - 942.0

From km 830 to 942.0, the navigation waterway is marked with coastal navigation signs, whose placement is adjusted on an ongoing basis. With regard to the current water level on the Vistula River at km 830.0 - 909.0, special attention should be paid to its low level; there are no impediments or hazards to navigation on the remaining section.

Note: at km 896+800, while crossing the waterway from the left bank to the right bank and vice versa, it is necessary to exercise extreme caution and limit the speed to the necessary minimum; yellow warning buoys were positioned on the right bank (broken groyne heads).

Martwa Wisła

Traffic difficulties may appear due to the ongoing reconstruction and work conducted in the outport of the sluice. Additionally, edges of the outports and the sluice platforms are still under construction, therefore, it is strictly forbidden to disembark vessels. In view of the above, it is necessary to report lockage to the sluice operator by phone: 786-876-453 or 58-323-93-76.

Elbląg Canal

Floating signs were displayed. All sluices are operational; the lockage is possible at fixed times.

Rzeka Szkarpawa

The waterway is marked with signs. Fairway depths meet the waterway class requirements.

Nogat River

The waterway is marked with signs.

- At the waterway km 24+100 i.e. below the Rakowiec sluice towards the Vistula Lagoon, at the length of 20 m, there is a depth restriction of 168 cm with the water level of 192 cm at the water gauge located at the lower station of the Rakowiec sluice.
- At the waterway km 39+000 i.e. below the Michałowo sluice towards the Vistula Lagoon, at the length of 30 m, there is a depth restriction of 168 cm with the water level of 540 cm at the water gauge located at the lower station of the Michałowo sluice.

Wisła Królewiecka River

The waterway is marked with signs. Fairway depths meet the waterway class requirements.

Tuga River

The waterway on the Tuga River will be opened after all the activities aimed to ensure safe and efficient navigation are completed. The opening of the waterway will be announced in a separate notice.

In accordance with Notice to Skippers No. 43/2020, from 1 January 2021 until 30 June 2022, the width of the navigation waterway on the Tuga River has been limited to 4 m from km 0+000 to km 0+723.

Jagiellonian Canal

The waterway is marked with signs.

Fairway depths meet the waterway class requirements.

Elbląg Canal

The waterway is marked with signs.

- At km 46+500 of the Elblag Canal, at the length of 10 m, and at km 1+200 of Drużno lake, at the length of 30 m, there is a depth restriction of 167 cm with the water level of 549 cm at the water gauge located at the lower station of the Całuny ramp.
- At km 21+200 and 32+100 of the waterway, i.e. below lake Ruda Woda, towards Buczyniec, at lengths of 10 m and 20 m respectively, there is a depth restriction of 138 cm with the water level of 883 cm at the water gauge located at the upper station of the Buczyniec ramp.

Bartnicki Canal (0+000-1+000)

The waterway is marked with signs. Fairway depths meet the waterway class requirements.

Brda at km 0+000 - 14+800.

At km 2+700 - 5+300 section, floating navigation signs are displayed. The sluices are operational; the lockage is possible at fixed times.

Fairway information was prepared based on own data and the data of the Institute of Meteorology and Water Management, National Research Institute (IMGW-PIB).
