3. Notices to Skippers

Vistula at km 680.0 - 830.0

From km 680 to 718, the floating signs are displayed. From km 718 to 729, the navigation waterway is marked with coastal navigation signs. Floating signs are displayed from km 729 to 737 while from km 737 to 830, the waterway is marked with coastal navigation signs, whose placement is adjusted on an ongoing basis. The current water level on the Vistula River is low with a downward trend. Sand bars, i.e. places that limit the fairway depth, has appeared.

Vistula at km 830.0 - 942.0

From km 830 to 942.0, the navigation waterway is marked with coastal navigation signs, whose placement is adjusted on an ongoing basis. With regard to the current water level on the Vistula River at km 830.0 - 909.0, special attention should be paid to its low level; there are no impediments or hazards to navigation on the remaining section.

Note: at km 896+800, while crossing the waterway from the left bank to the right bank and vice versa, it is necessary to exercise extreme caution and limit the speed to the necessary minimum; yellow warning buoys were positioned on the right bank (broken groyne heads).

Martwa Wisła

Traffic difficulties may appear due to the ongoing reconstruction and work conducted in the outport of the sluice. Additionally, edges of the outports and the sluice platforms are still under construction, therefore, it is strictly forbidden to disembark vessels. In view of the above, it is necessary to report lockage to the sluice operator by phone: 786-876-453 or 58-323-93-76.
